

# 2020 Design Live 13.3

## Release Notes

2020 Design 13

© 20-20 Technologies Inc. All rights reserved.

# Introduction

This document identifies the features added to version 13.3 as well as fixed issues.

## New Functionalities

- Lock of Items
  - This functionality will allow users to lock specific categories of items (e.g.: walls, windows, doors). It will prevent accidentally moving the selected items when dragging objects with the left mouse button.
- Basic Mirror functionality
  - This functionality allows for the mirroring of projects containing cloud decorative items and appliances. Items that originated from the Local Browser will be fully mirrored (including swapping of hinges and nomenclature) whereas Cloud items will be simply duplicated.
- Sun Intensity Slider
  - This functionality allows for the control of the light intensity generated by the sun.

## Fixed Issues

- Fixed an issue when clicking undo would revert several steps (to when the ESC key was last pressed)
- Fixed an issue where the application froze when trying to print Drawing Layout in PDF format
- Fixed an issue where the height of strip lighting (from the Room\_Fur and Room\_Fum catalogs) could not be edited.
- Fixed an issue when printing a “Multiple Elevations” was Incomplete in Texture Mode
- Added a missing attributes texture variable for Door Wizard frame
- Fixed an issue where incorrect finished sides were applied
- Fixed an issue where finished sides calculation did not work properly.
- Fixed 2 highly occurring stability issues
- Fixed a stability issue occurring upon saving a project containing 2 identical add-ons.
- Fixed a stability issue related to the FlexQuickInput tool
- Fixed an issue where Legends ID disappeared from images generated through the Application Integration Module
- Fixed 2 issues where Styles & Pricing GSV dialog appeared blank
- Fixed an issue where Legend number reordered upon re-opening a project

- Fixed an issue where the Switching items mechanism caused the legend numbers to reorder.
- Fixed an issue where the price of an Add-on in attributes and item list were different.

## Customer Support

Customer Service personnel at 2020 is committed to providing the best possible technical support to all 2020 Design customers.
